

The PI Japan Family

WHAT YOU'LL BE DOING

Your end goal will be church planting. How you do this depends on your unique giftings, interests, and call. You might be a full-time supported missionary; you might teach English; you might attend the local university as a student. Count on God to use the gifts and talents He has given you to build His church in Japan.

MAKE YOUR MOVE

Think about it! Pray about it! Do you have a heart for unifying the church body, mobilizing workers into unreached areas of Japan, and serving church-planting teams? This might be just for you.

Interested? For more info, check out the Pioneers Fukuoka team website at www.pioneersjapan.org/fukuoka or email Brian Broaddus at brianandyoko@gmail.com.

We'd be really happy to send you more details on Fukuoka, our team, the strategy's various phases, education opportunities for your kids, or even just general info about churches in Japan. Feel free to ask away!

KYUSHU

MINISTRY

CENTER

PIONEERS
JAPAN

Think about it.

If you were given the chance to do church planting in Japan, would you know where to start? Neither would we. That's why we're planning the Kyushu Ministry Center (KMC): a place where incoming Pioneer missionaries can get connected to language learning opportunities, get plugged into a church, learn the complexities of Japanese culture, and at the end of two years of training and support from more experienced on-the-field missionaries, be sent out as effective church planting teams.

The KMC is going to be the gateway for new Pioneer missionaries coming to Japan, and we need your help to start it.

OUR VISION is to see the start of a church planting movement in Kyushu, launching one new team into every Kyushu prefecture within a couple generations. They will be and will make mature, reproducing disciples leaving behind networked, mission-engaged churches with qualified leadership.

OUR MISSION is to assist PI teams in planting churches throughout Kyushu by providing a base of operations, handling mobilization, provide training for new missionaries, and establishing credentials as an organization in Japan. Also, once we have enough trained staff, to use the center as a place to train and encourage Japanese pastors and missionaries.

THE PLAN

The Fukuoka team will develop the KMC training program (good language learning opportunities, housing arrangements, etc.) while recruiting a full-time team of at least 3 units. The KMC team will launch once all units finish 2 years of training through the nurturing and guidance of the Fukuoka team. The KMC team's first tasks will be to transition into functioning as a new team separate from our church-planting teams. From there they will develop a missionary orientation training program, internship program (Venture), church planting multiplication strategies unique to Kyushu, establish a physical location, as well as develop methods for training Japanese pastors and missionaries.

- ▶ by April 2018: To have a fully trained KMC team that is separate from our church-planting teams. Have a location/building. Have a church partnership. Self-sustaining funds (English classes, financial support, etc).
- ▶ by April 2017: 2nd year of training for new team members. Legal docs done. JLPT N3. Bible courses finished. Team has clear understanding of responsibilities, goals, purpose, and direction.
- ▶ by April 2016: 1st year of training for new team members. Have all units on the field in Fukuoka.
- ▶ by April 2015: Research, network, find potential church partnerships. Continue recruiting new team members. educate ourselves... learn how to start a ministry center, learn how to train teams effectively, etc.
